CONCUR

RailSync™ Concur allows you to manage freight revenue efficiently and accurately while enabling certified Interline Settlement System (ISS) participation.

Price Management
- Create and maintain customer Price Information Profiles for simple or complex rating conditions
- Customize rate sequences, route and Standard Transportation Commodity Code (STCC) information
- Manage profiles using built-in inquiry and sorting tools

Freight Billing
- Generate freight billing automatically when rating results are accepted
- Create and manage invoice payments for all shipments, including local waybills not settled through ISS
- Track receivables and post customer payments to outstanding freight bills issued by your railroad
- Retain freight bills for reprint or reissue
- Manage billing using search and sorting tools
- Print in summary and/or detail format

Reports
- Provide detailed revenue analysis
- Output in multiple formats with the ability to e-mail and export to XML, Excel, RTF, HTML and CSV
- Funds Transfer Reports protect your interline revenue in advance
- Trial Balance Reports safeguard your cash position and earnings prior to month's end

Revenue Waybill Manager™
- Minimize time spent processing waybills
- Import 417 transportation waybills
- Manage active, suspended, settled and canceled revenue waybills
- Manage 426 waybills from creation to concurrence
- Edit and validate all revenue waybill fields
- Use auto-rating functions to speed the settlement process while ensuring accuracy and rating integrity
- Send and receive messages with ISS Central
- Track progress of revenue waybills using detailed audit logs

Interline Data Exchange
- Communicate with connecting carriers using industry- standard Electronic Data Interchange (EDI) messages

Data Validation And Error Management
- Eliminate costly transaction errors with online EDI data validation
- Ensure industry data integrity and minimize application errors with online Industry Reference Database validation
- Easily link to the source of error conditions sent out by ISS Central

Rail Logistics. Real Easy.
